What do we learn of the consequences of Brexit when we look at it in context of major global processes and phenomena? This discussion will focus on the results of the UK referendum on EU membership in the light of debates on global economy, issues of labour mobility and circulation, and debates about cultural conflicts. Can Brexit also be an opportunity for Switzerland in the wake of substantial changes in the external relations of the EU?

A panel discussion with:

Prof Dr Humeira Iqtidar, Senior Lecturer in Politics (King's College London), co-chair of the London Comparative Political Theory Workshop.

Prof Dr Mario Pianta, Professor of Economic Policy (Urbino), Member of the Centro Linceo Interdisciplinare “Beniamino Segre” at the Italian Academy of Sciences.

Prof Dr Teresa Pullano, Assistant Professor European Global Studies at the Europainstitut.

Dr Thomas Staehelin, Former Attorney and Notary Offices, Chairman of the Basel Chamber of Commerce, president of the Foundation Europainstitut Basel.

Chair: Prof Dr Madeleine Herren, Director of the Europainstitut.
