Doctorate with a structural position	The position of a research associate with a Master's degree		
(research associate with a Master <sup>1</sup> )	or equivalent with the aim of obtaining a doctorate is limited to one year with the possibility of a three-year extension.		
Doctorate with a non-structural position (for example project assistant <sup>1</sup> )	The position of a project assistant is limited in time according to the respective duration of the third-party funded project and can only be extended within this framework; details are described below (third-party funding).		
Doctorate without an employment contract at the University of Basel	The doctoral candidate is not employed at the University of Basel and therefore responsible to secure his/her own funding of the doctorate.		

The first supervisor and the doctoral candidate agree on the following responsibilities and planning of the financial resources:

<sup>1</sup> according to the "Ordnung für das Wissenschaftliche Personal an der Universität Basel (OWP)"

If the extension of the contract is viewed critically by the first supervisor and/or the person responsible for the position, a meeting in the extended circle (usually the whole doctoral committee), where minutes are taken, is mandatory. Non-extension of an employment contract must be justified in writing by the doctoral committee and submitted to the Faculty's Doctoral Board, with a copy to the doctoral candidate, at least two months before the end of the contract (three months are recommended).

In any case, according to the employment contract, the employment of the doctoral candidate ends automatically at the latest six months after completion of the doctorate – except in the event of illness and/or parental leave.
